SUMMARY

As a dedicated and passionate Software Engineer with a Bachelor's degree in Computer Science and over 5 years of experience in the field, I specialize in Frontend Development. My expertise lies in creating user interfaces using HTML, CSS, JavaScript, SASS, Bootstrap, jQuery, and React. Additionally, I have side skills in backend development with Node.js and Laravel for creating APIs. I am committed to continuous learning and thrive on tackling new challenges, constantly expanding my skill set to stay at the forefront of technological advancements.

Throughout my career, I have demonstrated my ability to work independently and collaboratively within diverse teams, delivering high-quality software solutions that meet and exceed client expectations. My strong problem-solving skills, attention to detail, and dedication to excellence have been key to my success in developing innovative applications and improving existing systems.

I am enthusiastic about leveraging my skills and experience to contribute to impactful projects and drive the success of the organizations I work with.

EXPERIENCE

02/2025 - Present

Practicum Assistant
IPB University DIploma
